

# Lavender Persuasion

Lavender Persuasion joined forces with record label Perfect Dark in 2018 after showcasing his unique, enchanted style as a special guest during the late-night slots of Perfect Dark's initial DIY events. His free-spirited track selection ranges from whimsical progressive house, to sassy, tongue-and-cheek-techno, eccentric, lush breakbeats, and deep, dubby electronica. Lavender Persuasion has a reputation for refusing to conform to a specific genre and regularly excites crowds across Northern California through deranged, energetic, deeply compassionate and nuanced track selection. Connor loves to read a room, and excels at taking crowds on a journey. Lavender's synesthesia-inducing sets encourage you to close your eyes, breathe deep, and listen to the colors of your mind. Connor grew up listening to Jerry Garcia, the blues greats and the pioneers of reggae. He's been playing guitar for over two decades. Lavender Persuasion is currently in month seven of a year-long residency at Argus Bar and Patio in Chico, CA, and is extremely grateful to enjoy a heartwarming level of support from the wonderful north-state community of Chico he loves so much.
