

# Freeman 713

Hailing from the hills of Northern California, Freeman 713 is a DJ / Producer headquartered in Los Angeles, CA. Freeman 713 combines dense tribal grooves with high-energy, raving techno to create a versatile and potent blend of slamming sound. Constantly adapting and evolving, Freeman's sound can be described as heavy and driving while still possessing a sexy, endlessly danceable groove. Freeman 713 DJ sets are an exercise in total audio freedom, and the vibrations they curate are tangible. Expect the unexpected, close your eyes, and listen to the colors of your mind. In 2021, Freeman began garnering global attention online after the release of their "Weapons" series; tooly grooves largely inspired by early 2000's tribal and hard techno. At the same time, Freeman began making waves in the LA underground rave scene, spinning blistering sets at clandestine renegades and finding common sonic grounds with other LA-based artists. Freeman 713 is also a founding member of Northern California based collective / record label "Perfect Dark" (@perfectdark909).
